

## COMFORT CONTROL

Using the Comfort Control gives the Body Spa a whole new way to conserve. Simply twist the cylinder to reduce the water flow to a trickle and back again to super charge the flow with up to 10 times the oxygen.

## SUSTAINABILITY

Oxygenics technology saves thousands of gallons of water per fixture per year in demanding commercial and residential environments. Conserving water and natural resources is one way to move towards sustainability. Using a water-conserving showerhead not only saves water, but it also saves energy.

## PERFECT FOR RVs

With the use of the comfort control the Body Spa is even more environmentally friendly with the ability to reduce the flow to a trickle with a simple twist making it perfect for RVs.

## The Perfect Blend of Functionality and Performance

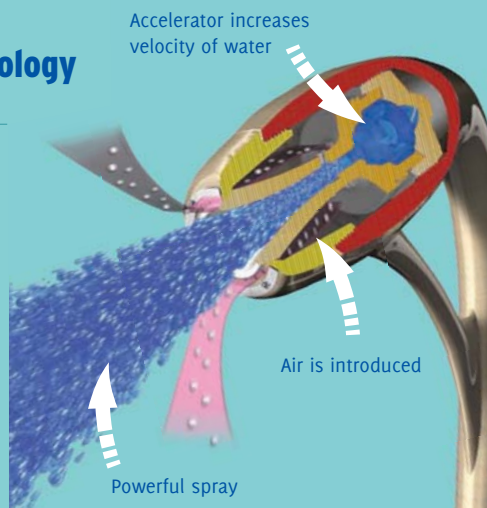

The Oxygenics Body Spa incorporates the functionality of a handheld with the self-pressurizing and water efficiency attributes of Oxygenics to create the perfect handheld showerhead. Designed to save as much as 70% in water and energy consumption while increasing the force of the water, it's a practical handheld that provides a strong, powerful spray which is eco-friendly and extremely enjoyable.

### Pressure Boosting Technology

Increases Your Pressure - Saves Water & Energy

There is no other showerhead brand on the market that uses the patented core technology of Oxygenics showerheads and no other showerheads are able to deliver the same powerful pressurized results.

The innovative design injects air into the water stream as the accelerator fin increases the velocity of the outbound water. The result is a powerful full-body oxygenated spray that feels amazing and saves water and money at the same time.

## FEATURES

Water Saving

Money Saving

Easy Install

Lifetime Warranty

60" Hose

Flow Control

## AVAILABLE FLOW RATES

2.5 GPM MAX

## AVAILABLE STYLES

Handheld

## AVAILABLE FINISHES

Chrome

Brushed Nickel

White

# oxygenics® Body Spa®

## HANDHELD

MODEL	FINISH	MAX FLOW RATE
130-xf25	Chrome	2.5
12121	Brushed Nickel	2.5
100-xf25	White	2.5

**Includes:** (1) Wand, (1) Flow Control Valve (1) 60" Hose, (1) Holder, Teflon Tape, Installation Instructions

## FEATURES & BENEFITS

### Pressure Enhancing Technology

Increased water velocity + air induction = MORE PRESSURE. The patented technology ensures an invigorating pressurized shower spray regardless of water pressure.

### Saves Water and Money

Oxygenics uses 20-70% less water compared to industry leading brands. Thousands of gallons of water can be saved each year which means significant energy and money savings.

### Adjustable Spray Volume

The flow control valve reduces water flow to further increase water savings. Adjusts from a full spray down to a trickle for an infinite amount of spray possibilities!

### Bring the Water to You

The lightweight wand and ergonomic comfortable handle make it a snap to move about the shower. The handheld kit comes with a 60 inch hose and wand holder so it's easy to bring the water to you. Great for kids, pets, shower seats, RVs and even cleaning the tub!

### 100% Maintenance Free - No Clogging

The internal components are made of Delrin® - a material similar to Teflon® which increases durability and eliminates clogging, mineral build-up and corrosion. No cleaning required - install it and forget it!

### Lifetime Guarantee

The Oxygenics Body Spa comes with a lifetime performance warranty against clogging. It's guaranteed not to clog - EVER.

The Oxygenics Body Spa Series meets ANSI standard testing and materials specifications A112.18.1M-1996.

Designed to function appropriately at pressures no less than 20 psi. Constructed to withstand pressures of 150 psi and temperatures up to 160° F.

The internal components are constructed of injection molded Delrin acetal. The pieces are machine pressed into the base and cannot be removed with a straight pushing or pulling force of less than 100 lbs.

The cores are constructed of Delrin acetal resin. Each core spray uses a venturi system consisting of 16 air entrance ports, which allow air to increase the spray velocity. Oxygen levels in the water are increased as well.

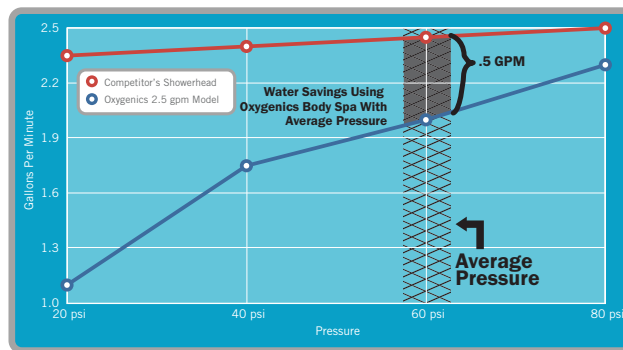

The showerhead face and outer shell is made of plated ABS plastic enhancing the showerhead's appearance and muffling the spray functions.

The wand holder utilizes a ball and socket allowing for adjustment. Ball is constructed with Delrin acetal. The seating washer is designed to seal around the ball swivel when compressed by assembly. Bases fit any standard 1/2" male threaded shower arm.

The 60" hose and holder are constructed of ABS plastic, aluminum, and zinc. Both are designed to withstand pressures of up to 100 psi.

Lifetime warranted against clogging and defective material and workmanship.

## WATER SAVINGS COMPARISON

Flow restrictors have been placed in showerheads by manufacturers as a way to keep water usage at 2.5 GPM since it was mandated by the U.S. Government in 1992. This method of water restriction significantly decreases water pressure creating unsatisfactory shower performance. Oxygenics showerheads contain no removable restrictors and adapt to the incoming water pressure to use only what is necessary while still providing an extremely enjoyable and pressurized shower which saves a significant amount of water, energy and money.

While other industry-standard showerheads flow at 2.5 GPM at 60 PSI (national water pressure average), the Oxygenics Body Spa flows at 2.0 GPM at 60 PSI, offering 20% water savings. Not only is this savings significant in reducing water, but it also reduces energy costs as less hot water is used.

As illustrated in the chart above, Oxygenics showerheads adapt to the incoming water pressure, so as the pressure decreases, more water and energy savings can be expected compared to industry-standard showerheads that have a constant flow of 2.5 GPM. In some cases, as much as 70% water and energy can be saved by using Oxygenics showerheads.

## PRODUCT SPECS

**Product dimensions:**  
Handheld - 2" x 8.7" x 6.2"

**Individual product weight:**  
Handheld - 1.6 lbs.

## PACKAGING SPECS

**Package dimensions:**  
White Box - 2.5" x 8.6" x 5.5"  
Clamshell 1 - 13.25" x 6.5" x 4.5"  
Clamshell 2 - 13" x 6.875" x 3.625"

**Case quantity (24 units):**  
White Box - 24 units / ctn.  
Clamshell 1 - 4 units / ctn.  
Clamshell 2 - 6 units / ctn.

**Case weight (42 lbs. / 48 lbs. / 44 lbs.):**  
White Box - 42 lbs.  
Clamshell 1 - 6 lbs. (8 lbs. / ctn.)  
Clamshell 2 - 9 lbs. (11 lbs. / ctn.)
